🚀 Launch Roadmap: Partner-Led Lead Flow

6 weeks, June 22 to August 2, 2026. Max 10 hrs/week from you. Goal: $15k to $38k/mo through repricing plus 2 to 10 referral partners. Month 2 to 3 direction follows the milestone table.

Phase 1: Foundation (Weeks 1 to 2)

Lock pricing (U3, U4, U5, BM5), brief the freelancer (U6), build the co-branded cash-forecast lead magnet (CH6) and open the partner conversations. Week 2 contains the close by the 5th, so it stays light. Nothing goes live except the pricing page.

Week 1: Partners + Pricing Lock (June 22)

Email both agencies the referral-fee proposal ⭐

Send the one-page Google Doc with the referral fee and a co-hosted "Q4 cash planning" workshop. Done when both calls are on the calendar by June 26.

2h · You · CH3

Lock the price sheet

Fractional CFO $3,500 shown first, Books + Forecast $2,500, Books $1,800, Snapshot $950, Sprint $2,500 to $6,000. Done when one approved Google Doc exists.

2h · You · U4

Brief the freelancer

Scope: pricing page by June 30, then Tally, Zapier, Pipedrive, Calendly, Stripe and MailerLite by July 15. Done when the scope is signed with both dates.

1.5h · You · U6

Write lead magnet copy

Co-brandable "Q4 cash forecast" guide, led by the Q4 deposit pain and the three proof numbers with "Individual results; not typical." Done when the draft is in Google Docs.

3h You CH6

Week 2: Close Week, Light Load (June 29)

Pricing page live by June 30

⭐

All three tiers, Fractional CFO first, the "Books closed by the 5th or that month is free" SLA, and the case-result disclaimer. Done when the URL is live and you have approved it.

4h Freelancer U3

Send 60-day price notice by July 1

Email all ~18 existing clients: new pricing effective September 1, 2026. Done when the email is sent and the replies folder is set up.

1.5h You BM5

Canva lead magnet + partner one-pager

Done when two PDFs are ready, one with a co-brand slot.

3h You CH6

Build the tracking sheet

Columns for leads, qualified, shows, Snapshots, Sprints and CAC, plus a "books closed by the 5th" yes/no per client. Done when the 18 clients are loaded.

1h You U8

🎯 Milestone 1: Foundation Complete (July 3)

Phase 2: Launch (Weeks 3 to 4)

Partner work happens in weeks 2 to 4 of the month, after the close by the 5th. Activate the partners (CH3), finish the funnel (FC4, U6) and get proof approved (MT1). Go live July 15.

Week 3: Partner Activation (July 6)

Hold both partner calls ⭐

Agree the referral fee and set a workshop date. Done when two partners have signed the one-page agreement and the workshop is on the calendar.

3h · You · CH3

Build the funnel

Tally fit form, Calendly, $950 Snapshot Stripe link, Zapier to Pipedrive with UTMs. Done when a test lead shows utm_source in Pipedrive.

8h · Freelancer · FC4

Name partner #3 candidates

List 5 Shopify-focused agencies and send 3 intro emails. Done when the list and the 3 sent emails are logged in Pipedrive.

2h · You · CH3

Approve the proof

Write the $42k, 21 to 4 days and $250k stories as one paragraph each. Done when you have each client's written OK.

2h · You · MT1

Week 4: Go Live (July 13)

Funnel live July 15 ⭐

Run one end-to-end test: form, call booking, $950 Stripe test payment. Done when all three appear in Pipedrive with UTMs.

2h You U6

Send partner links and workshop invite

Each partner gets a unique UTM link and the lead magnet. Done when both partners confirm the invite went to their list.

2h You CH3

Write the 20-minute fit call script

Add a Snapshot delivery checklist (forecast in 10 days). Done when both fit on one page.

3h You U8

🎯 Milestone 2: First Traffic (July 17)

Phase 3: Optimize + Buffer (Weeks 5 to 6)

Read the first real data (U7, U8), fix only the weakest conversion, and use week 6 as buffer. The close by August 5 is near, so no new builds.

Week 5: First Data (July 20)

Run every fit call ⭐

Done when each lead sits in Pipedrive with a partner source and at least 3 fit calls are held.

3h You U6

Build the workshop deck

20 slides on Q4 cash planning, screen-share and voice only, no camera. Done when the deck is shared with both partners.

3h You CH6

Monday check against thresholds

Fewer than 3 leads in 2 weeks means partner #3 is the only tuning task. Done when the sheet is updated every Monday (15 min).

1h You U8

Week 6: Buffer + Month-1 Review (July 27)

Month-1 review ⭐

Compare the funnel to the U8 green/yellow/red thresholds. Done when the worst metric is named and its corrective action is scheduled for August weeks 2 to 4.

2h You U7

Buffer: close open tasks

Finish whatever slipped in weeks 1 to 5. Done when the task list is at zero.

3h You U9

Confirm August workshop + partner #3 call

Done when the date is public and a call is booked. No outreach July 29 to August 5.

2h You CH3

🎯 Milestone 3: First Snapshot Sold (July 31)

🚀 Partner funnel live, repricing in motion

📊 Milestones & Review Checkpoints

Milestone	Week	Success Criteria	If NOT Met
M1: Foundation Complete	End of Week 2 (July 3)	Pricing page live, price notice sent, lead magnet PDF and tracking sheet ready	Do not send partner links. Finish first, then launch.
M2: First Traffic	Week 4 (July 17)	Funnel live, 2 partners signed, 2 or more partner leads in Pipedrive	Chase partners and fix the partner one-pager before any other work
M3: First Snapshot	Week 6 (July 31)	1 or more $950 Snapshots paid, 5 or more fit calls held	Run the U8 corrective actions: rewrite the fit form, then A/B test the Q4 deposit angle vs. the MCA cost angle
M4: Kill-Switch Review	August 26 (Month 2)	4 or more leads/mo, a Snapshot after 15 fit calls, CAC under $8,200	Pause partner spend. Start Apollo + Instantly outbound to Shopify F&B brands, 200 emails/mo.
Month 2 Review	First Monday of September	Repricing live September 1. Notices from no more than 9 of 18 clients. 6 or more leads/mo.	Over 9 notices: keep Books at $1,800 and add the Lender-Ready Books Pack for annual prepay. No discounts.
Month 3 Review	October	10+ leads/mo, call-to-Snapshot 30%+, CAC under $4,100 for 4 weeks	Scale: raise partner spend from $390 to $900/mo. Write SOPs (U8, MT3) before the junior hire at 15 retainers.

🛡️ Risk Mitigation Plan

- ❓ **Two partners send too few leads**
  Warning signs: fewer than 3 leads by July 31, or under 6 leads/mo in August.
  Response: recruit partner #3 before touching copy or funnel. If still under 4 leads/mo by August 26, pause partner spend and switch to outbound.
- ❓ **Repricing triggers churn**
  Warning signs: more than 9 of 18 clients give notice by August 15.
  Response: keep Books at $1,800, offer the Lender-Ready Books Pack for annual prepay, and do not discount.
- ❓ **Launch work collides with the close by the 5th**
  Warning signs: any month closes after the 5th (that month is free under the SLA).
  Response: no calls or workshops from July 29 to August 5. Keep partner work in weeks 2 to 4 and cap marketing at 10 hrs/week.
- ❓ **Repeating past failures (paid ads and content)**
  Warning signs: you start adding content or ad tasks when leads run slow.
  Response: ads ran at $1 to $200/mo and were never funded, so CH1 stays parked. Content stays a faceless text layer. The only fallback is outbound email, which needs no camera.
- ❓ **Funnel build slips past July 15**
  Warning signs: the Tally to Pipedrive test fails on July 10.
  Response: launch July 15 with Calendly, Stripe and the Google Sheet by hand, then add Zapier automation the following week.
